REG IADP Full Scale Demonstrators

ADAPTIVE WING INTEGRATED DEMONSTRATOR

- **FLYING TEST BED#1 (FTB#1)**
In-flight demonstration of Load Control & Alleviation and Aerodynamics enhancements features through new generation wing devices and advanced Flight Control Actuation systems
- **OUTER WING BOX (OWB) Ground Demonstrator**
Structural static and fatigue tests of innovative low cost and low weight structural technologies integrated at full scale level

IRON BIRD Ground Demonstrator

Integration and validation of FCS Load Control/Load Alleviation (LC/LA), Electrical Landing Gear, Electrical Power Distribution System, inter-system integration activity; support the achievement of the permit-to-fly for FTB#1

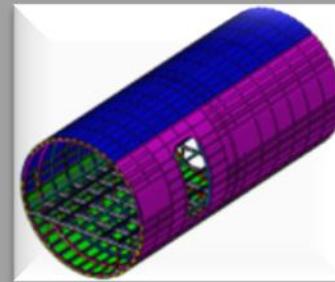

REG IADP Full Scale Demonstrators

D3 - FUSELAGE / PAX CABIN INTEGRATED DEMONSTRATOR

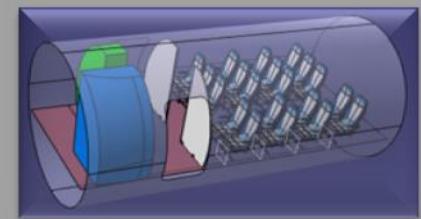

Fuselage Ground Demonstrator

Full scale composite fuselage with innovative structural and architectural solutions aimed to weight and cost reduction

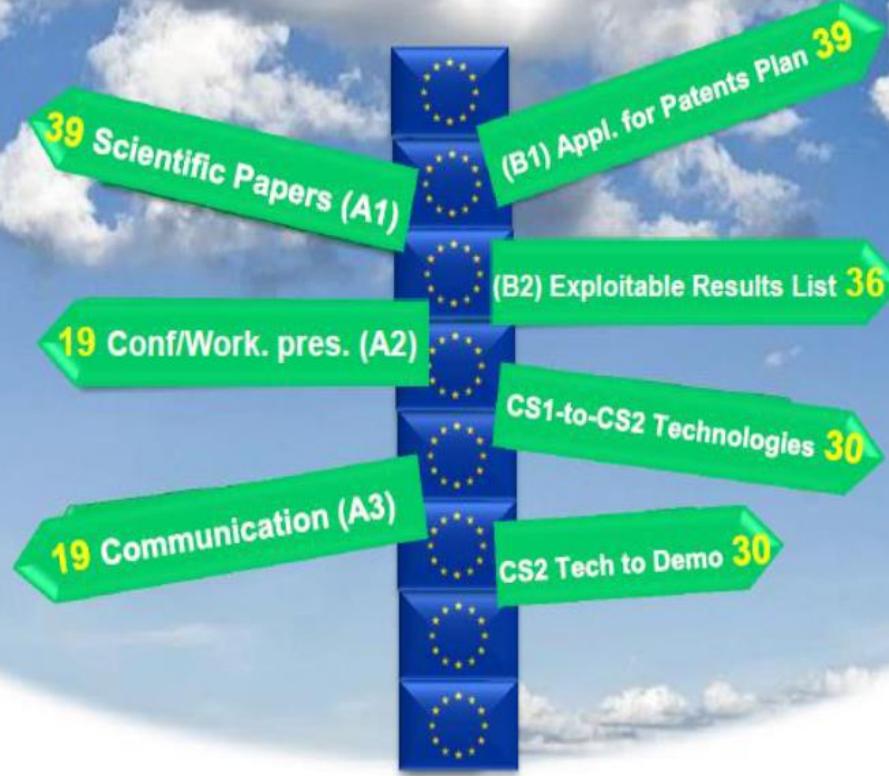

Cabin Ground Demonstrator

Full scale passenger cabin (same primary structure of fuselage structural demonstrator) with innovative on board systems and advanced solutions for increasing passenger comfort and safety
